

How can the Forum partners work together to make the most of the new Coastal Access route (e.g. opportunity to engage with public, improve local economy) whilst protecting and enhancing wildlife?

Look at wider issues across catchments that may have an impact on the Solent

Closer working with the Solent LEP (Local Economic Partnership) and the marine sub-group, plus the M3 LEP

With the Solent being a body of water, where is the landwards boundary of the Solent, and hence the remit of the Forum?

PLANNING FOR THE FUTURE

Increase membership. "Introduce a member" – existing members have a wealth of contacts – whether membership is on a temporary or permanent basis all would benefit from more shared knowledge

Would it be helpful to consider the environmental capacity of the Solent area?

Does resilience only mean concrete and seaward expansion? What are the more original and sustainable options?

Sponsor more student projects and set up work placements for student with local companies e.g. AMP, Southern Water etc.

Some thoughts on how the Solent Forum can build upon its existing work and services over the next 25 years from delegates from the Solent Matters conference (10/05/2017)
